

CHRIS CAGLE

An electric country-recording artist who has evolved with confidence in his faith, family and conviction, Chris Cagle's mission has been, and always will be, to move people with his music. A mature, sensitive and energizing performer, Cagle strives to push his limits to be the best that he can be. Chris Cagle is a son, a husband, a father and an entertainer who has entered a new chapter of his life with reflection and resolve.

With good ground beneath him and the love of family surrounding him (wife, Kay, and daughters Chloé, Stella and Piper), Chris has learned to give up control and believe. His heart is content and his mind at ease.

With *The Big Horse Ranch* as their playground, painted like a portrait, royal bloodline mares, futurity foals and champion reining horses dance in the Oklahoma fields while his children's laughter brings the canvas to life. ...and life is good.

BACK IN THE SADDLE serves as a homecoming for Chris Cagle and represents the soundtrack for his life.
